**INC. MAGAZINE HONORS QUALITY FLOAT WORKS, INC. AS
ONE OF TOP 5000 PRIVATELY HELD BUSINESSES IN AMERICA**

Schaumburg Manufacturing Company Earns Back-To-Back Award

SCHAUMBURG – Inc. Magazine has announced Quality Float Works, Inc., a Schaumburg area manufacturer, has been named one of the top 5,000 fastest growing private companies in the nation. This is the second consecutive year Quality Float Works, Inc. has been named to the exclusive list. The 2008 Inc. 5000 list measures revenue growth from 2004 through 2007. Since 2003, Quality Float Works, Inc. has seen a 105% increase in revenue due to developing a technological innovation that has allowed them to compete in the global marketplace. Today, their products are used in gas, oil, plumbing and agricultural applications throughout Asia, Canada and Europe to help purify water in developing nations. By taking advantage of the weakened dollar, the company has penetrated new markets abroad.

“We are extremely honored to earn consecutive awards and be included among some of the nation’s most successful companies who are dedicated to fostering the entrepreneurial spirit,” said Sandra Westlund-Deenihan, President, Quality Float Works, Inc.

“This award recognizes our continued success in providing innovative solutions for our customers both here and abroad. We’ve been able to sustain growth and thrive in lieu of a weakened economy,” said Jason Speer, Vice President, Quality Float Works, Inc.

Methodology

The 2008 Inc. 5000 list measures revenue growth from 2004 through 2007. To qualify, companies must be U.S.-based and privately held, independent – not subsidiaries or divisions of other companies – as of December 31, 2007, and have had at least \$200,000 in revenue in 2004, and \$2 million in 2007. Complete results of the Inc. 5000, including company profiles and a list of the fastest-growing companies that can be sorted by industry and region can be found at www.inc5000.com. Most important, the 2008 Inc. 5000 companies were engines of job growth, having created more than 826,033 jobs since those companies were founded.

About Quality Float Works, Inc.

Quality Float Works, Inc. is the premier manufacturer of hollow float metal balls and float valves in the nation. Our floats are used to level liquid controls in a wide variety of industries including gas, plumbing, oil and agricultural applications. Many products you see and use every day, from gas pumps to air conditioners, could not be operated without float balls. Quality Float Works, Inc. is owned and operated by third and fourth generation entrepreneurs.
